

CLUB ACTIVITY #1

RECEIVE THE WORLD'S FIRST SPACE MAIL

Want to be one of the first humans to receive a postcard from space?

Draw or write your vision of **millions of people living and working in space** on the blank side of a self-addressed, stamped postcard, and send it to us. We'll pack the first 10,000 postcards received before July 20, 2019 inside the Crew Capsule on an upcoming New Shepard flight. Your idea will launch into space! Once New Shepard returns to Earth, we'll send your postcard back to you, officially stamped "flown to space." To participate, follow our step-by-step guide below.
